HDK-5 DRUM KIT

The Heil HDK drum kit series is a culmination of over 2 years spent on the road with leading drummers that gave us their ideas, their dreams and their needs, which we turned into reality. Each part of a drum kit needs special attention when it comes to reproducing the entire kit accurately. There are many drum microphones out there but the artists that helped design the Heil drum microphones wanted more accuracy, not just level.

The PR 48 kick drum microphone starts with our 1.5" large diaphragm dynamic element sealed in a vulcanized shock mount and fed with a specially designed low pass filter that creates a 10 dB rise from 60 to 100 Hz. – right where the kick drum resonates. We then stay out to 7.5 kHz and drop off drastically to eliminate any unwanted internal sounds.

Four Handi Mics are used for the toms, snare and cymbals. The Handi Mic Pro Plus is one of the most amazing microphones of all time. Only 4" long and outperforming many of the old standard 'ball' microphones, the HM Pro Plus is perfect for a small drum kit.

Two of our HH-1 mounts (patent pending) are provided for the tom mounts of the Handi Mic. The HH-1 is a unique mount, fully adjustable so you can mount it on the rim or one of the mounting hoops of the tom drum.

www.heilsound.com

PR 48

Frequency Response	30 Hz - 8.5 kHz
Impedance	250 Ohms
Polar Pattern	Cardioid
Sensitivity	10 dB rise @ 70 Hz
Finish	Black matte finish and red wind screen

Handi Mic Pro Plus

Sensitivity	3 dB rise @ 4500 Hz
Frequency Response	70 Hz - 14 kHz
Impedance	Low 600 Ohms balanced
Polar Pattern	Cardioid
Finish	Black Matte

The HDK 5 comes to you in a thick padded vinyl carrying case.
